Education

Case Western Reserve University, B.S., Computer Science, Minor, Banking and Finance expected May 2019

Copley High School, Graduated with Honors, May 2015

Related Experience

Undergraduate Research Assistant 8/15-Present

Kirsch Lab, Case Western Reserve University, Cleveland, OH

Part of the BrainGate 2 project. Involved in development of goal based algorithms for neural decoding. Used linear discriminant analysis to create classifiers for the purpose of target differentiation based on position of a cursor. Created data visualization tools for easier understanding of path efficiency. Implemented games which responded in real time to neural signals recorded via a Brain- Machine Interface.

Intern 7/13 & 7/14

Safadi Lab, Department of Anatomy and Neurobiology, Northeast Ohio Medical University, Rootstown, OH
Interned under Dr. Faye Safadi with a focus on research into Osteoblastic differentiation. Performed cell culture and microscopy for the analysis of the effect of electrostimulation on bone growth.

Mentor 7/14

Austen BioInnovation Institute, Akron, OH

Taught the basics of Biomedical Engineering including computer-aided design, problem identification and solving. Helped a group of students apply the aforementioned skills to develop a product idea for concussion prevention and detection.
